Required

Join us for a transformative experience with Dust of Soul - a visionary duo known for unlocking the healing messages of your soul through the power of music and frequency.

Let go of anxiety and reconnect with your true self as Singing by Saskia and Piano by Michael Angeles who are born with the gift of seeing into the hearts of souls. Experience through music, meditation, and song, your own unique soul song using 432 Hz - the frequency of harmony and healing. Your soul's messages become lyrics. Your inner vibration becomes melody. And what emerges is more than music - it's medicine for the spirit.

This session beautifully complements the Meditation Museum's mission - to awaken the inner light, restore peace, and reconnect each being to their divine essence. Come experience what it feels like to truly hear yourself - to meet the voice of your soul and embrace its wisdom.

Space is limited. Reserve your spot for this extraordinary encounter with the music of your being. In person at the Meditation Museum in Silver Spring, MD

1:00-3:00 PM
6:30-8:30 PM
